

Setting Your Goals

Your Goals: "Things you're willing to work for" with time, effort, or money

After completing this sheet rate your goals with one, two or three stars. based on:

- *** three stars, if it is something that the family or a member must have or do.
 - ** two stars, if it is something that is needed or wanted, if family can possibly find the money, but could be put off for awhile.
 - * one star, if it is something that would be nice to have or do, but could be put off for quite a while, or could even be given up entirely.

Use your ratings to help you determine which goals are priorities and can possibly be reached.
